Current Events

Interdisciplinary Conference. Church Climate - Preventive conservation of the interior furnishings

The conference focuses on the climate in churches, with a particular focus on the potential for damage to interior furnishings such as altarpieces, sculptures, paintings and organs.

Through keynote lectures, attendants will be able to find out more about the current state of knowledge from various fields of expertise and, in addition, gain a broader awareness of the problem of building physics, construction, and restoration-related monument preservation challenges. "Best practice" case studies and ongoing research projects will show the variety of technical and preventive conservation options which consider the different conditions of each site.

When: 16–18 January 2019

Where: HAWK, Hildesheim, Hohnsen 2

Conference language: German

Application deadline: 6 January 2019

Registration is now possible. For further information see:

[https://www.hornemann-institut.de/english
/conference_klimazone_kirche.php](https://www.hornemann-institut.de/english/conference_klimazone_kirche.php)

In keeping with the conference, we have published two lectures from 2016 that were held in German at the HAWK in Hildesheim.

Conference Papers of the Consolidation Conference

The University of Applied Sciences and Arts in Hildesheim (HAWK) organized an international conference on "Consolidation and Communication" from 25 to 27 January 2018 in Hildesheim. The conference proceedings comprise 176 illustrated pages and 16 articles written in German or English (with abstracts of the articles in other languages). The authors come from Germany, Italy, Lithuania, Malta, Austria, Switzerland, the Czech Republic and the United Kingdom and the results of both long-applied as well as new fundamental research on the consolidation of art are published here. Consolidation measures and application types for different material areas are explained, and their potential to be used on objects made of other materials is also explored. Conference Papers has been published as volume 18 in the series of publications of the Hornemann Institute, and costs 29.90 Euros. It can be ordered from the [Imhof Verlag](#).

Conference Papers of the Sgraffito Conference

The conference papers of the international Sgraffito conference held from 2 to 4 November 2017 at the HAWK in Hildesheim will be published as postprints in November 2018. The conference focused on the material, technical and thematic change of these special plaster decorations from the Middle Ages to the late 20th century. Further information can be found [here](#).

You will be able to order the book directly from the Hornemann Institute.

New electronic publications for conservators

EwaGlos – Japanese translation is online

The European Illustrated Glossary of Conservation Terms for Wall Paintings and Architectural Surfaces (the so-called EwaGlos) is now available in 13 languages.

The Japanese translation was prepared by Prof. Dr. Takeshi Ishizaki, Tohoku University of Art and Design, Institute for Conservation of Cultural Property, and ICOMOS, together with 13 other contributors. You can find the English definitions and all 13 translations as a free download on: www.ewaglos.eu/pages/download.php

For anyone who is interested in translating EwaGlos (as voluntary work) and publishing it on our website, we have prepared a simple template for this purpose. Translators will be able to provide their own foreword and a list of the contributors.
